Our fish oils provide a high level of potency and freshness. Our fish are always sourced from fisheries that observe best practices for protecting endangered species and their ocean environments.

OmegaGenics formulas rely on advanced molecular distillation and selective raw material sourcing and are also stabilized with antioxidants to ensure optimal purity.

Every batch is third-party tested for over 450 contaminants including heavy metals and PCBs. We also perform in-house testing for microbial contaminants and conduct quality measures to ensure safety and potency.

- Each softgel provides 710 mg EPA and 290 mg DHA
