Every OmegaGenics Product Makes a World of Difference. So Can You.

OmegaGenics is proud to continue our partnership with Vitamin Angels, a charitable organization that helps provide nutritional support to protect the health of at-risk populations in need—specifically pregnant women, new mothers, and children under five—in approximately 45 countries. In 2016, contributions from OmegaGenics product purchases helped 100,000 people in need.

Let's help 100,000 more in 2017! Thank you for supporting this worthy cause to make futures brighter.

OmegaGenics®

Omega-3, -6, and -7 fatty acid formulas with the TruQuality™ purity guarantee

Personalized formulas to meet your individual needs

Metagenics®

Genetic Potential Through Nutrition

A Complete Line of Formulas for Personalized Health Needs

OmegaGenics® represents the industry's most comprehensive professional line of omega oil formulas, with precision dosing and multiple delivery options to satisfy a broad range of health needs and personal preferences.*

- **General Support**—formulas designed to help healthy patients achieve optimal levels of Omega-3 fatty acid recommendations*
- **Advanced Support**—formulas designed to help patients conveniently achieve higher therapeutic dosing levels*
- **Targeted Support**—formulas designed to target specific patient outcomes with high dose formulas of DHA, EPA, and GLA*

The OmegaGenics Difference

For over 30 years, Metagenics has led the nutraceutical industry in research and quality to make natural approaches even safer and more effective. The OmegaGenics line of omega oils reflects a higher level of purity, safety, and quality for reliably effective use—for exceptional formulas you can trust to promote better health.*

- TruQuality™ purity guarantee for every OmegaGenics formula
- Products exceed the highest worldwide standards
- Broad product range to meet your specific needs, tastes, and preferences

Personalized omega fatty acid formulas with TruQuality™ you can trust

TruQuality™ Purity Guarantee

OmegaGenics formulas undergo extensive third-party analyses to verify optimal purity. Every batch of fish oil is tested by Eurofins—one of the top independent testing labs in the world—to check for numerous contaminants (e.g., heavy metals, pesticides). And additional measures assure that the final product delivers exceptional quality and freshness.

Unsurpassed Freshness

OmegaGenics marine oils are a concentrated, purified source of pharmaceutical-grade omega-3 fatty acids from sustainably sourced, cold-water fish. The purification technologies for our formulas exceed the highest international standards.

Antioxidant Stabilized

For added protection against oxidation and rancidity, OmegaGenics marine oil formulas contain natural antioxidants like mixed tocopherols. Careful handling and temperature-controlled storage also help protect volatile oils to deliver premium quality and taste.

Sustainable Sourcing

OmegaGenics marine oils come from fisheries with ocean-friendly practices. All fish and calamari are wild-caught in cold waters and carefully processed for multiple uses (e.g., food) to minimize waste.

Superior Taste

Cleaner oils mean better taste. OmegaGenics® products start with exceptional quality oils to deliver a higher degree of purity you can actually taste. We also offer a variety of natural citrus/fruit flavors.

Personalized Formulas

OmegaGenics products are designed with specific dosages and ratios of omega oils—including omega-3s, omega-6s, and omega-7s—for targeted use. Available in liquids, softgels, chewables, and enteric options to meet personal preferences.

Giving Back

A portion of every OmegaGenics sale helps fund Vitamin Angels in their efforts to provide much needed nutritional support to expectant and new mothers and children under five—so you can help others while you promote your own health.*
